Our customers asked for it, so we made it! This is a unique latex fetish clothing / rubber bondage hybrid. This fits just like a regular latex catsuit, except there are no sleeves on the outside. Surf Suit With Special Hole

Product Information

This is another type of latex catsuit that our customers asked for, so we made it! This is a classic latex surf suit with a twist! We cannot show it on this website, but there is a strategically placed double re-enforced hole in this item, hidden behind the book. Entry is from the front, so this can be put on without the help of a partner. Zipper guards are standard. You can have this made in a variety of colors in .4mm, black .8mm, or black 1.2mm.

SUPER HEAVY 1.2mm Catsuit

👑 Product Information

We recently had this material specially fabricated just for us - it took about 2-3 months - but finally it has arrived! This is the heaviest rubber that can still be turned into clothing. This latex catsuit has a 3 way zipper that starts at the back of the head, and goes down underneath the crotch, and ends at the belly button. The zipper can be opened at any point. We aren't building gloves onto this suit, but you can have it built with or without attached feet. As for the hood - we have it shown here with the optional zippered eyes and mouth. It comes standard with a hood with open eyes and mouth, as shown in the extra photo. Check our other items to see what else we can make in 1.2mm latex. If you see an item you like, but 1.2mm is not shown as an option, just send us an email to find out if we can make it for you!

Inflatable Body Bag

Product Information

This one is a real treat and not easy to find - a reasonably priced inflatable latex body bag! We make this by hand from two layers of .4mm latex, although .8mm and 1.2mm is also available. The valve can accommodate any standard air pump. Air is pumped in-between the two layers of latex, putting quite a bit of pressure on the person held captive inside. The more air you pump into the bag, the more uncomfortable (or in some cases comfortable) it becomes for the person inside. This is one intense rubber bondage experience! If our standard sizes do not work for you, please email us and we can quote you a reasonable price for a custom sized sleep sack. You may choose to have optional 12" zipper placed in the middle of the bag, as is shown on the clear sleep sack. A latex hood is not included.

Price :\$ 395.00

Internal Sleeves Body Bag With Legs

Product Information

Our customers asked for it, so we made it! This fits just like a regular latex catsuit, except there are no sleeves on the outside. Instead, on the inside, there are sleeves built into the sides to keep the subject's arms at bay! Please also note the strategically placed zipper. Rear zip entry is standard. If you require a different kind of entry, email us. This is a nice crossover between latex fetish clothing and rubber bondage gear! Available in several colors in .4mm, black .8mm or black 1.2mm. You may also select the option for no internal sleeves if you want the wearer to be able to move his or her arms. Although the model is wearing a hood in the photos, this item does not come with a hood.

Price :\$ 240.00

Gimp Sack #1

Product Information

We didn't really know what to call this one so in our infinite wisdom, we named it the "gimp sack". This is a latex body bag experience you'll never forget. Once you or your victim is inside this sack, there is no escape. The bag is roomy, and shaped in such a way to give the person inside room to struggle, but not to escape. For added enjoyment, the person in the bag can be handcuffed, really making escape impossible. We build latex body bag standard with only a mouth hole. If you want it to have eye holes, just email us and we can accommodate your requests.

Price :\$ 425.00

Gimp Sack #2

Product Information

This item offers our most unique latex bondage experience. This is basically our gimp sack #1 with short enclosed sleeves added, so that the person inside can crawl around on his/her hands and knees, like a dog. This rubber body bag is made standard in .4mm latex, but for a heavier feel we can also use black .8mm or super heavy 1.2mm latex. Note that the zip entry is from the rear and can be opened at any point. When submitting an order for this item, please leave a note in the comments field as to your height, weight, chest, hips, and waist measurements so we can be sure we get the dimensions correct. Both of the gimp sacks are custom made with each order. If you have any latex bondage related questions, just ask!

Price :\$ 425.00

Deluxe Body Bag

Product Information

This is like our regular latex body bag, but with a few upgrades! This rubber body bag has not only internal arm sleeves - but also internal leg sleeves for the ultimate latex bondage experience. It comes standard with a zipper in the middle, so your partner can gain access to all of your important parts. This bag also laces up, so that once a person is inside, the bag can be cinched EVEN tighter. Finally, we have added 2 "windows" that snap open or completely off to allow access to the captive person's nipples. We've found that these "windows" are better than zippers, as everyone's nipples are not in the same location! Once you are inside this latex body bag - you are NOT getting out! Simply select the size closest to your measurements. Custom sizing can be offered on this item for a small additional fee. Just email us with any questions. To see a video of this item in action - check our YouTube page!

Super Bondage Body Bag

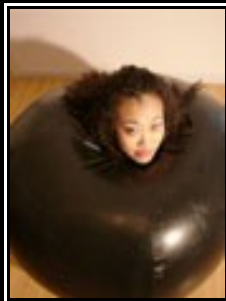

Product Information

This is our newest creation! Pictured here is a 1.2mm thick latex body bag with internal arm and leg sleeves, plus a built on latex hood! The attached latex hood shown here has no eye holes - just nose holes and a perspex mouth. The model was a bit small for the item, so we improvised with some optional latex belts. Once inside, there is NO ESCAPE!

You can customize the built on hood and you have several other options, including a zipper on the middle of the front side of the bag...for added enjoyment. This latex sleep sack is available in heavy .8mm or super heavy 1.2mm latex.

Price :\$ 450.00

The Ball

Product Information

The Ball is the ultimate inflatable latex rubber prison. Big enough to fit nearly anyone, The Ball offers a unique total enclosure inescapable rubber bondage experience. Air pressure keeps the person inside from being able to escape, and barely allows any movement. We have even designed a zipper system to attach an optional inflatable hood directly onto The Ball. The Ball in these photos is in .8mm, although we also offer .4mm and 1.2mm latex. If you decide to add the inflatable latex hood to the order, we are offering it at a steep discount! Also, you can just write us a note in the comments field on the order page letting us know what combination of openings you want (mouth only, mouth and eyes, etc).

Inflatable Body Bag

Product Information

This one is a real treat and not easy to find - a reasonably priced inflatable latex body bag! We make this by hand from two layers of .4mm latex. The valve can accommodate any standard air pump. Air is pumped in-between the two layers of latex, putting quite a bit of pressure on the person held captive inside. The more air you pump into the bag, the more uncomfortable (or in some cases comfortable) it becomes for the person inside.

This offers an excellent rubber bondage experience. These bags are available in two sizes - XL and XXXL. The XL size should accommodate those who fit into the small, medium, large and extra large measurements. The XXXL size should accommodate people who would wear either an XXL or XXXL size, according to the size chart. If neither of those sizing options work for you, email us and we can quote you a reasonable price for a custom sized sleep sack. You may choose to have optional 12" zipper placed in the middle of the bag, as is shown on the clear sleep sack. A hood is not included.

Product Information

You all asked for it, and you got it! Violent Beaugard and Willie Wonka fans unite! A super huge, super ROUND inflatable catsuit! You can look just like a blueberry on your way to the juicing room!
